

“Architectural Solutions for Every Space”

About Archilexis | Tensile & Fabric Architecture

Leading Tensile Structure Company in India

Archilexis is a premier tensile structure company in India, operating as the specialized division of Architractile, a leader in innovative structural engineering solutions. Established in 2019, Architractile has built a strong reputation in the industry for delivering high-quality conical tensile structures, fabric canopies, and fixed awnings.

With a vision to redefine modern construction, Archilexis focuses on delivering cutting-edge tensile and fabric architecture solutions that combine durability, aesthetics, and engineering precision.

Expertise in Tensile & Membrane Structures

At Archilexis, we specialize in the **design, fabrication, and installation of tensile structures and membrane systems** for a wide range of applications. Our solutions are tailored to meet the needs of commercial, industrial, and infrastructure projects.

Our key offerings include:

- **Tensile fabric structures**
- **Retractable Roof**
- **Swimming Pool Enclosure**
- **Tensile Gazebo**
- **Tensile Umbrella**
- **Shade Sail**
- **Awning Structure**
- **Playground Canopy**
- **Tensile Facade Structure**
- **Terrace Covering**
- **Tensile Pergola Structure**
- **Stadium tensile roofs**
- **Airport tensile canopies**

- **Walkway and parking shed tensile structures**
- **Industrial and commercial shading solutions**

We are recognized for delivering **custom tensile structure designs** that are both visually iconic and structurally robust.

Our use of advanced materials ensures that our **fabric structures withstand extreme weather conditions** while maintaining their aesthetic appeal.

Advanced Materials for Long-Lasting Performance

As a trusted **tensile membrane structure manufacturer**, we use globally approved materials known for their performance and longevity:

- **PTFE Fabric Structures** – High durability, UV resistance, long lifespan
 - **PVC Coated Fabric Structures** – Economical and versatile
 - **ETFE Structures** – Lightweight, transparent, and ideal for modern architecture
-

Why Archilexis

Archilexis stands among the **top tensile structure companies in India** due to:

- End-to-end solutions: Design, engineering, manufacturing, and installation
 - Expertise in **custom tensile design and fabrication**
 - Commitment to quality and international standards
 - Use of **modern fabrication and erection techniques**
 - Strong focus on **client satisfaction and timely delivery**
-

Innovative & Sustainable Architecture Solutions

We are committed to delivering **sustainable tensile architecture solutions** that reduce material consumption while enhancing structural efficiency. Our designs promote **natural lighting, ventilation, and energy efficiency**, making them ideal for modern infrastructure projects.

Transforming Spaces with Fabric Architecture

From large-scale infrastructure to commercial developments, Archilexis continues to shape the future of **tensile architecture in India**. Every project we execute reflects our dedication to **innovation, precision engineering, and architectural excellence**.

Call to Action:
Let's Design Your Next Space Together

 **ARCHILEXIS**

Product Categories

Tensile Fabrics & Modular Spaces

Outdoor Covers

Retractable Roof Tensile Umbrella Shade Sail

Leisure Structures

Tensile Gazebo Pool Enclosure Playground
Elegant outdoor Comfort and safety Canopy Fun spaces
letsure for kids

Commercial Solutions

Awning Car Parking Entrance
Structure Cover Canopy

  

Integrated Services & Maintenance

Design & Engineering

Custom solutions, from
conceptual drawings to
detailed structural analysis.

Fabrication & Installation

State-of-the-art facilities and
experienced field crews for
precision and safety.

After- Sales & Care

Periodic maintenance plans, fabric
cleaning, and repair services for longevity.

 **ARCHILEXIS**

Material Excellence, Warranty & Projects

Advanced Fabrics

Utilizing top-tier architectural
textiles for UV resistance, fire
retardancy, and durability.

Structural Rigidity

Engineered steel and aluminum
framing, designed to withstand
local wind and snow loads.

Warranty

Comprehensive industry-
leading warranties on both
structure and fabric.

Notable Projects:

Commercial Indo
SRF Torrent Industry
Central Park Flower Valley
Gurgaon
Aman Tex Cone Pvt Ltd
